

I'm Sinan,

I design clean, minimal interfaces with a strong focus on usability and clarity.

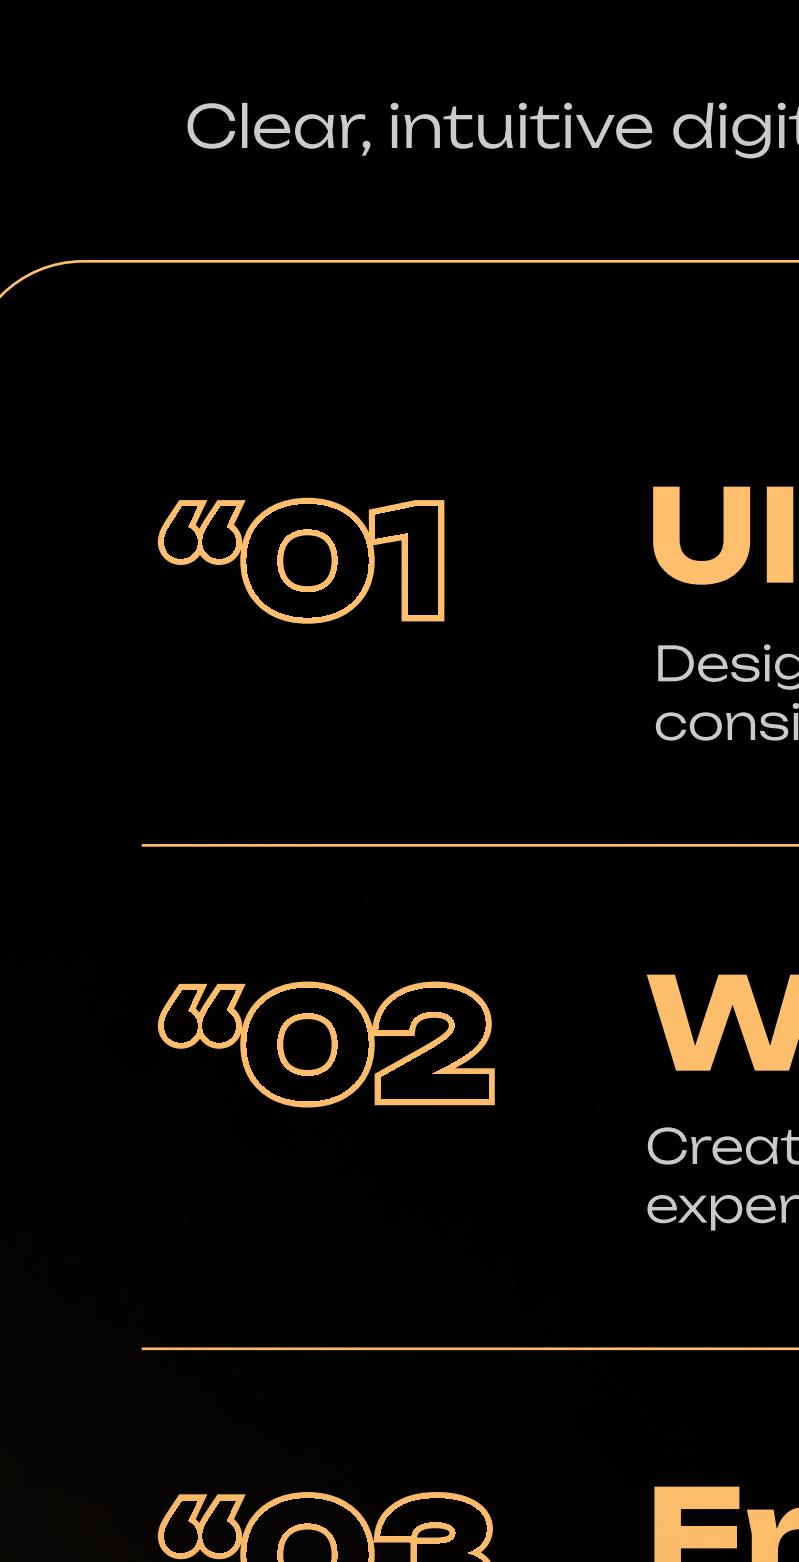

Currently building strong foundations through structured learning and hands-on practice projects.

You May Have Seen Me In :

This portfolio showcases conceptual and practice work created as part of my learning journey in UI/UX design and front-end development.

About Me

I'm An Aspiring UI/UX Designer And Front-End Developer Currently Focused On Building Strong Design Fundamentals And Practical Skills. My Work Emphasizes Clean Layouts, Clear Visual Hierarchy, And User-Centered Thinking. I Enjoy Turning Ideas Into Structured Interfaces That Feel Simple, Modern, And Easy To Use. This Portfolio Represents Practice And Concept Projects Created To Simulate Real-World Design Scenarios As I Continue Learning And Growing In The Field.

Skills I'm Developing

Clear, intuitive digital experiences built with design and structure in mind.

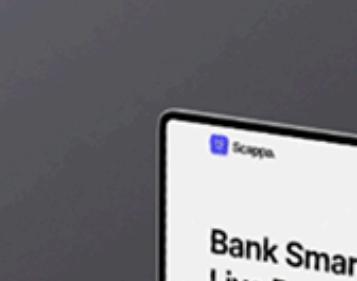

UI/UX Design

Designing user interfaces with a focus on clarity, consistency, and usability.

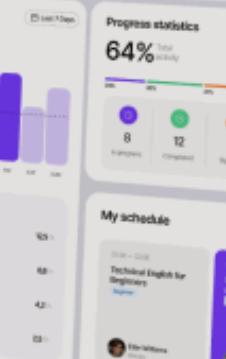

Web Design

Creating responsive layouts and visual designs for modern web experiences.

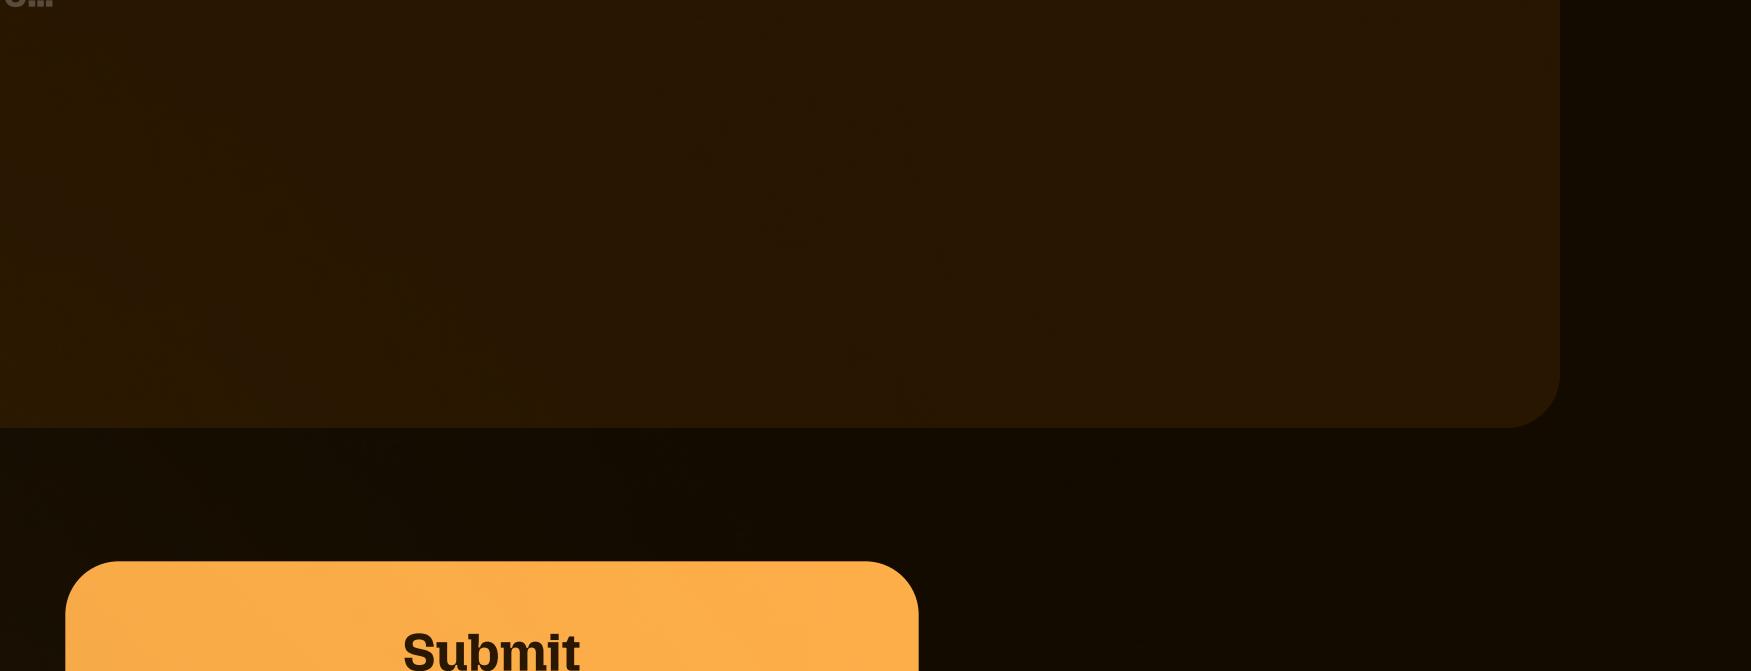

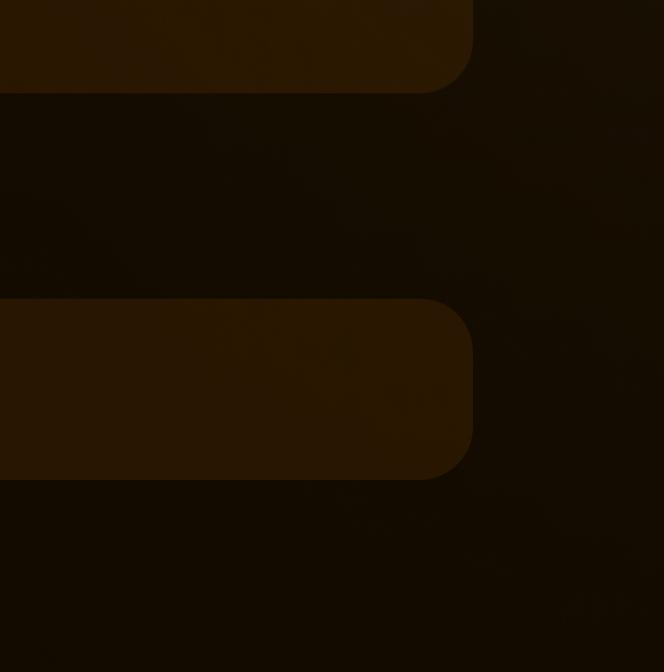

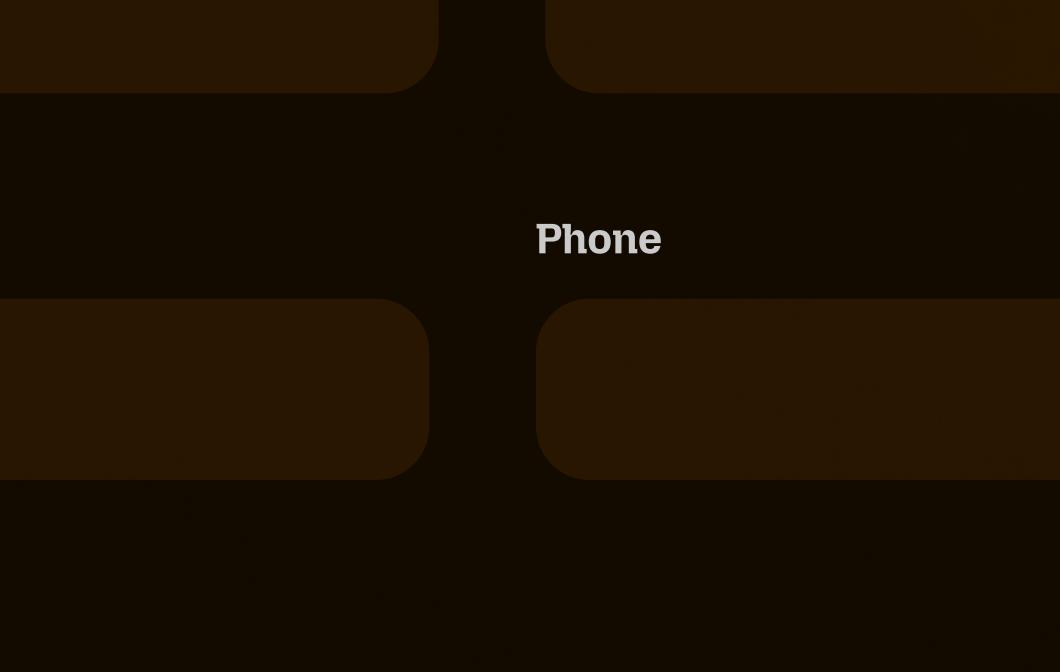

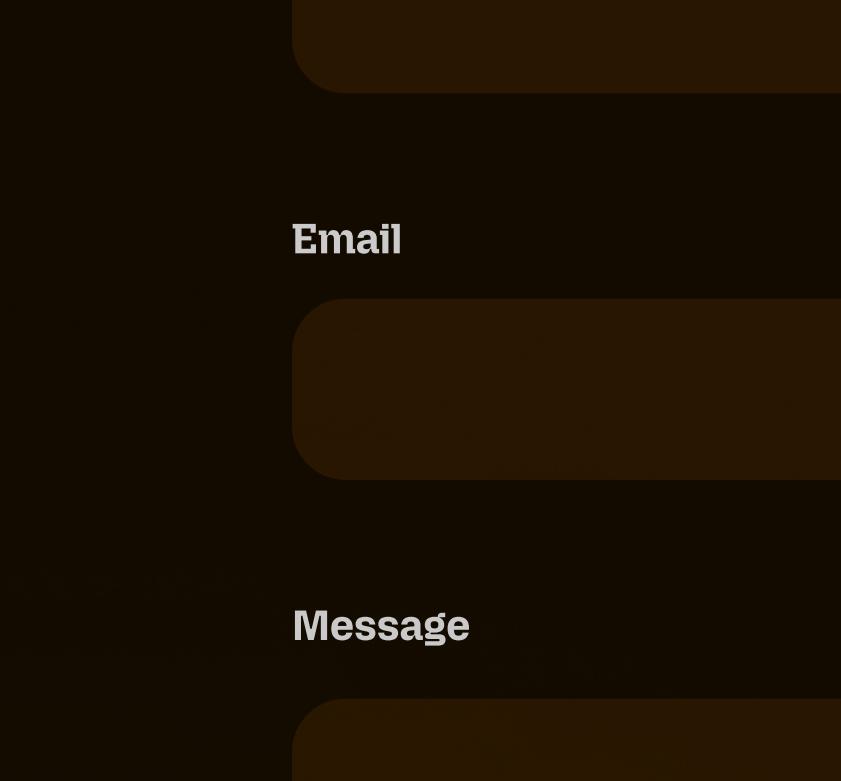

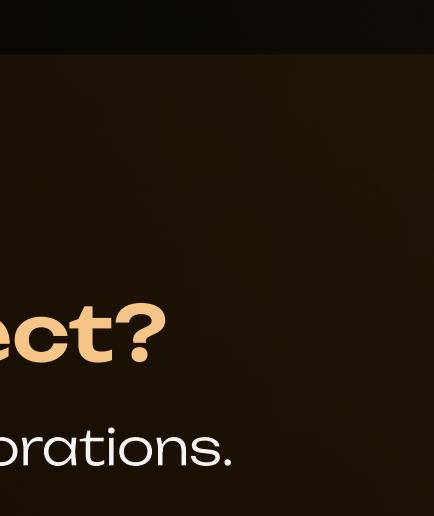

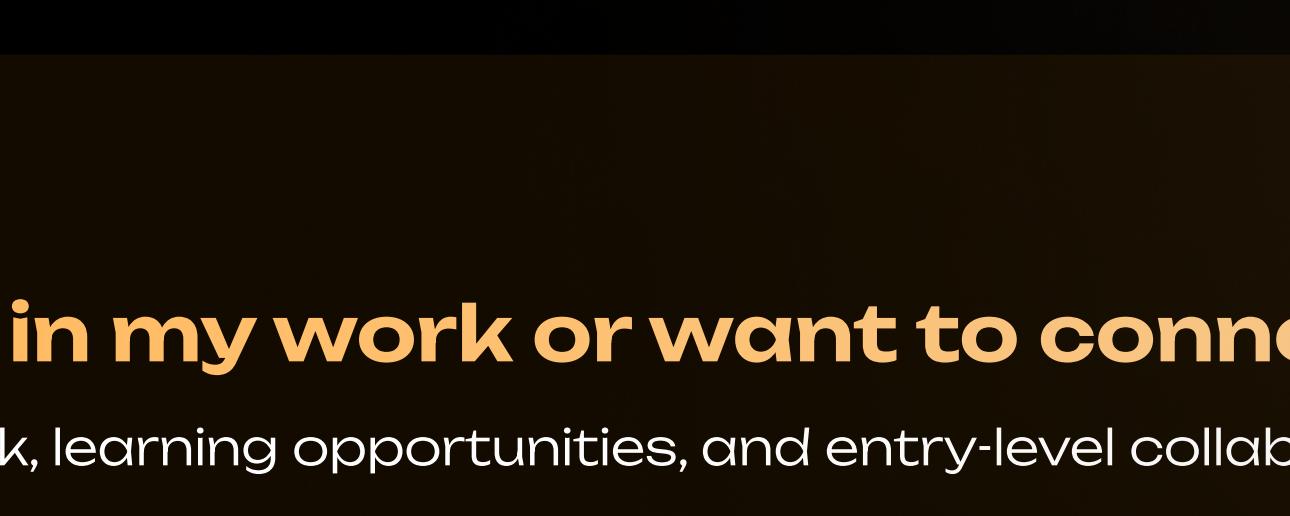

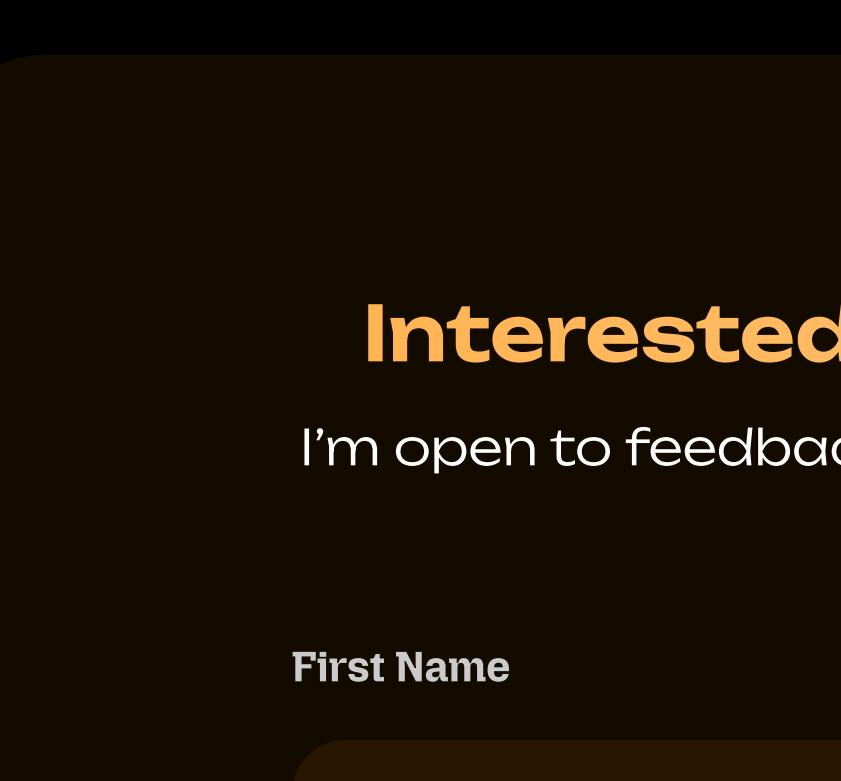

Frontend development

Building static and interactive interfaces using HTML, CSS, JavaScript, and Bootstrap.

Practice & Concept Projects

A collection of self-initiated and course-based projects created to practice design thinking, layout structure, and interface design.

Interested in my work or want to connect?

I'm open to feedback, learning opportunities, and entry-level collaborations.
